Describing the Data

Purpose: *Notice trends In the Box Office for the Week of August 29,2025*

Movie Title - The name of the film

Distributor - The organization that helps mass distribute the film.

Gross - the total money a movie makes that week from ticket sales before any expense is deducted

%LW - This means the percent last week compared to the previous week. For example, if a movie earned 10M this week and \$20M last week, %LW= 50%

Theaters - total theaters playing the movie for the week

Theaters Change - the number of theaters that the film was added to, removed from, or initially released in compared to the previous week's data.

Per Theater - the revenue made for each film in each theater it was released in.

Total Gross - the total revenue that was made by the film since it was released in theaters before other expenses were subtracted.

Weekends In Release - this shows the number of weekends the movie has been played.

Three questions

1. *What's the relationship between the number of theaters a movie is playing in and its total gross revenue?*
 2. *What distributor is making the most revenue?*
 3. *Which movies experienced the largest drop and increase %LW in box office revenue from last week*
- 

Top 10 Movies for Week 8/29/25

Top performer: *Lilo & Stitch* led the week with \$422,985,124 in total gross.

Strong competitors: *Superman* and *Jurassic World Rebirth* ranked second and third.

Range of top 10: Total grosses varied from \$73,062,085 (*The Bad Guys 2*) to \$422,985,124, showing wide variation among top earners.

Top 10 Movies %LW Change for 8/29

- "My Life" shows a massive 8,620% jump, with the largest increase
- "Ran" follows with 4222% rise, indicating major expansion
- "Don't Let's Go to the Dogs Tonight" was on the lower end by still grew by 56%

Bottom 10 Movies %LW Change for 8/29

End-of-run films: Movies like *Hell House* with -99% drops are likely finishing their theater run.

Theater count matters: Fewer showings or theaters can cause steep weekly revenue declines.

Decline trend: Bottom movies consistently drop 72–99% week over week.

U.S. Box Office Performance by Theater Count

The chart shows how widely each movie is distributed across the country

- "Caught Stealing" has the largest reach, playing in 3578 theaters
- "Elio" has the limited release playing in only 35 theaters
- The comparison highlights how large distributors can push films into thousands of theaters while smaller distributors often launch with limited audience and fewer resources

Per-Theater Performance

High audience demand in select films:

Weapons earned the most per theater (\$3,065), showing strong audience interest even without the highest total gross.

Large variation in performance: Per-theater revenue ranged from \$3,065 to \$756

Theater count likely influences rankings:

Movies shown in fewer theaters often achieve higher per-theater efficiency, while wide releases tend to spread audiences thinner.

Distributor Market Share

Universal Studios led the weekend: Highest gross revenue at \$17.9M

Major studios dominate: Warner Bros. (**\$14.2M**) and Walt Disney (**\$12.9M**) follow, demonstrating that the biggest distributors consistently control most box office revenue.

Clear imbalance in market share: The visualization shows large studios occupying most of the chart, indicating that smaller distributors contribute significantly less to total weekend earnings.

Distributor Market Share for Weekend of 8/29/25

What does this mean?

Top distributors

- ★ Universal led weekend revenue on August 29, 2025, followed by Warner Bros. and Walt Disney.

Top movies

- ★ *Lilo & Stitch* had the highest total gross, showing strong overall performance.

Theater count impact

- ★ Movies in more theaters generally earn more, but per-theater efficiency shows smaller releases like *Weapons* can perform very well.

Week-to-week changes

- ★ Movies like *Hell House* had steep drops, while *My Life* and *Ran* saw big gains due to theater expansions.
- 

Distributor with Most Revenue

Top distributor: Universal earned the highest total gross among all distributors.

Other leaders: Walt Disney and Warner Bros. also reached triple-digit million totals.

Reasons for success: Likely due to a combination of releasing many films and having highly successful titles, consistent with their prominence in the industry.

Relationship Between Avg Theaters and Avg Total Gross Revenue

Movie Title	Average of Theaters	Average of TotalGross
Lilo & Stitch	2440	\$422,985,124
Superman	1824	\$351,033,773
Jurassic World Rebirth	1352	\$337,919,055
Jaws	3200	\$281,898,790
The Fantastic Four: First Steps	2785	\$264,835,533
How to Train Your Dragon	217	\$262,909,095
F1: The Movie	728	\$187,852,423
Weapons	3416	\$132,659,399
Freakier Friday	3475	\$80,697,936
The Bad Guys 2	3024	\$73,062,085
Grand Total	2246.1	\$239,585,321

General positive relationship: Movies shown in more theaters tended to have higher total gross revenue, showing a slight upward trend.

Not always consistent: Example: *How to Train Your Dragon* earned high revenue despite having fewer theaters than others in the Top 10.

Ultimately, there may be other factors at play such as marketing or other promotional methods.

Top 10 Movies by % Change in Weekly Revenue

Row Labels	Sum of %LW
Jane Austen Wrecked My Life	8620%
Lilo & Stitch	4122%
Ran	985%
Can't Let It Go	568%
Marlee Matlin: Not Alone Anymore	311%
Lurker	102%
Splitsville	62%
In the Fire of War	62%
Don't Let's Go to the Dogs Tonight	56%
Hot Spring Shark Attack	43%

- Movies experiences much larger week to week gains in box office revenue than others
 - Films like "Jane Austen Wrecked My Life" and "Lilo & Stitch" saw dramatic increases, likely due to expanded theater releases
 - "Marlee Matlin: Not Alone Anymore" and "Kurker", showed moderate but steady growth, suggesting strong audience retention
- Highlights how distribution changes can create major short-term boosts in revenue
 - This is important for predicting market behavior and planning release strategies

What does this mean?

All three graphs show box office performance for the weekend of August 29, 2025.

Multiple factors matter:

- 
- ★ Success depends on several variables working together, not just one.

Larger distributors perform better:

- ★ More theaters and higher visibility lead to greater total gross.

Smaller studios:

- ★ Rely on niche audiences; fewer theaters limit reach.

Theater count correlation:

- ★ Number of theaters often reflects how well-known a distributor is
